```
graph TD; 101[APPLICATION UNDER TEST (AUT)] --> 103[APPLICATION MAPPER]; 103 --> 105[APPLICATION MAP]; 105 --> 107[SCRIPT GENERATOR]; 107 --> 109[SCRIPTS]; 109 --> 111[APPLICATION TESTER];
```

The flowchart illustrates the application testing process. It begins with the **APPLICATION UNDER TEST (AUT)** (101), which is processed by the **APPLICATION MAPPER** (103). The output of the mapper is the **APPLICATION MAP** (105), which is then used by the **SCRIPT GENERATOR** (107) to produce **SCRIPTS** (109). Finally, the **APPLICATION TESTER** (111) executes these scripts to test the application.
